Visit the below website to find the specific premises with compulsory testing notice:

https://www.coronavirus.gov.hk/pdf/compulsorytestingnotice_premises_ENG.pdf

Health care advice from the Department of Health

- Wash hands with liquid soap and water, and rub for at least 20 seconds. Then rinse with water and dry with a disposable paper towel. When the hands are cleaned, do not touch the water tap directly again (for example, using a paper towel to wrap the faucet before turn it off).
- Cover your nose and mouth with it when sneezing or coughing. Dispose soiled tissue paper properly into a lidded rubbish bin and wash hands with liquid soap and water afterwards.
- Mouth, nose and chin should fully be covered when wearing the face mask
- Avoid touching the surgical mask after wearing. Otherwise, should perform hand hygiene before and after touching the mask
